OUR VERDICT

A clear plan for the hardest part: starting

Starter pick Creators

Most people who want to post short videos never start because they do not know what to say. The 30-Day Creator Blueprint removes that blocker. You share your niche, audience and goals — plus your TikTok or YouTube and optional sample clips for a private Creator Audit that tells you what is working and what to change first. Then you get a month of ready-to-film videos: each day has a concept, three hook options, a full script, caption, call to action, on-screen text and practical filming directions, written around your voice. In the dashboard you mark videos as recorded, edit any script, regenerate ideas that do not fit and export the whole plan as PDF or CSV. The plan is generated from what you submit, it does not make videos for you, and it is honest that views are not guaranteed. For $49 once, with a 60-day refund period, it is an affordable push from “someday” to 30 published videos.

What we like

- **Personalised, not generic.** Built from your niche, audience, goals and channel.
- **Private Creator Audit.** An honest read on what works and what to fix first.
- **Ready to film.** Concept, 3 hooks, script, caption, CTA, on-screen text, filming tips — every day.
- **Flexible.** Edit scripts, regenerate ideas, track what you filmed.
- **Yours to keep.** Export the whole plan as PDF or CSV.
- **Low risk.** $49 once, no subscription, 60-day refund period.

Good to know

- **You still film.** It plans content; it does not create or edit videos.
- **Generated plan.** Ideas are generated from your answers — edit anything that does not sound like you.
- **No growth guarantee.** Views and followers depend on you, your niche and consistency.
- **Short-form only.** Built for TikTok, Instagram Reels and YouTube Shorts.
