BEST FOR
Scrum roles & PSM I prep
career changers to working pros

By Serkan Fatih Gökdemir · SoftwareSelects

OUR VERDICT

A lot of Scrum learning for very little money

Top pick Scrum courses

Scrum Career Accelerator gathers the courses of Dejan Majkic — an IT leader with 20+ years of experience, 70+ Scrum certifications and 140,000+ students — into one library for $47. The heart is 14 Scrum courses: a 29-hour Agile and Scrum Masterclass, user stories, requirements, testing, risk, difficult people, retrospectives and a full 80-question PSM I exam walkthrough, plus templates and a career toolkit. Three suggested paths (Career Changer, Drafted Pro, Practicing Pro) tell you where to start. What we like most is the honesty of the sales page: it says clearly what you get, what you do not get (no official exam fee, no live coaching) and why the price is low. With a 60-day refund for any reason, the risk is close to zero.

What we like

- **Huge value for $47.** 27 courses, including a 29-hour Masterclass, for less than one hour of most trainings.
- **Real PSM I preparation.** A full 80-question exam walkthrough you can pause and test yourself against.
- **Practical, not just theory.** Templates for sprint plans, retros, user stories, risk and your resume.
- **Clear starting points.** Three paths for career changers, people new to Agile teams and working pros.
- **Experienced instructor.** 20+ years in IT leadership, 70+ Scrum certifications, 140,000+ students.
- **Honest and safe.** Clear limits on the sales page and a 60-day refund for any reason.

Good to know

- **The exam fee is separate.** The official PSM I costs $200 per attempt at Scrum.org; the bundle prepares you for it.
- **Certificates of completion only.** You get one per course, but they are not official PSM or PSPO certifications.
- **Self-paced video, no live coaching.** You need a few focused hours a week; questions go to e-mail support.
- **Some overlap.** Shorter courses repeat parts of the Masterclass, and 13 courses are about marketing and consulting.

WHAT'S INSIDE

14 Scrum courses, 13 career courses and the tools around them

Everything is delivered online on the Thinkific course platform, with lifetime-style self-paced access. Course names are from the seller's page.

Scrum & Agile core

Agile and Scrum Masterclass
29 hours: framework, roles, events, artifacts, cert prep

Scrum Master Starter Kit
Quick start with a self-assessment checklist

Scrum for Non-Technical Teams
For marketing, HR and operations

PSM I Exam Walkthrough
A real 80-question exam session to test yourself

Skills for the role

User Story & Requirements
Write, split and map stories; product and sprint goals

Testing & Risk
Agile testing strategy and a risk execution system

People & Retros
Handle difficult people; Retro Results with 13 templates

AI-Powered Backlog Refiner
Turn vague requests into sprint-ready stories

Career & extras

Career toolkit
Resume templates, interview prep, LinkedIn guidance

Scrum Career Compass
7-day self-assessment and roadmap

13 career courses
Consulting, course creation, YouTube, TikTok, email

Certificates & support
Completion certificates and e-mail support

Good to know: the 13 career, marketing and consulting courses are optional extras for people who later want to freelance or consult; the seller states they teach skills only and do not promise any income. If you only want Scrum, skip them.

HOW IT WORKS

From “What is Scrum?” to exam-ready

1

Buy once and get your login

Pay $47 through Digistore24. You are enrolled on Thinkific, usually within minutes, and your login arrives by e-mail.

Pay	$47 once
Enrolled on	Thinkific
Login	by e-mail
Access	all 27 courses

2

Pick your starting path

All three paths use the same library. Choose where to start: Career Changer (4–6 weeks), Drafted Pro (3–4 weeks) or Practicing Pro (6–8 weeks).

3

Learn and use the templates

Watch the courses at your pace, download the sprint, retro, user story and risk templates, and build your resume and interview answers with the career toolkit.

Sprint plan	template ✓
Retrospective	template ✓
User stories	template ✓
Resume & interview	toolkit ✓

4

Test yourself, then book the exam

Work through the 80-question PSM I walkthrough. When you score comfortably above 85%, buy the official assessment at Scrum.org.

Practice	80 questions
Target	90 %+
Official exam	Scrum.org
Fee	$200, separate

PRICING

One price for the whole library

Scrum Career Accelerator is a one-time purchase through Digistore24 — there is no upgrade to buy. Price from the seller's page.

Everything included

Scrum Career Accelerator

$47 one-time

All 27 self-paced video courses on Thinkific.

- 12 Scrum & Agile courses + 2 bonus Scrum courses
- 13 career, marketing & consulting courses
- Templates, career toolkit, PSM I exam prep
- Certificates of completion and e-mail support
- 60-day refund for any reason

Not included

$200 per exam attempt

Paid separately to Scrum.org if you want the official certification.

- Official PSM I assessment: 80 questions, 60 minutes, 85% to pass
- Live 1:1 coaching or a scheduled cohort
- Official PSM / PSPO certificates (only completion certificates)

Taxes may be added at checkout where they apply. The official exam price is from Scrum.org and can change; check scrum.org before you buy an assessment.

HOW TO TRY IT

Try Scrum Career Accelerator risk-free in 4 steps

1. **Buy the bundle**
   $47 once on Digistore24.
2. **Log in on Thinkific**
   Your login arrives by e-mail within minutes.
3. **Start your path**
   Finish the first course in your first week.
4. **Decide within 60 days**
   Keep it, or ask for a full refund for any reason.

Your safety net: Scrum Career Accelerator comes with a 60-day refund for any reason, with no viewing limits. Use the refund link in your Digistore24 order e-mail, or e-mail the instructor with "Refund" in the subject line; Digistore24 refunds the full amount.

SETUP GUIDE

Getting started with Scrum Career Accelerator

Access takes minutes. These steps take you from your first login to booking the official PSM I exam.

1 Buy the bundle and keep your e-mails

Pay $47 once through Digistore24. Keep the Digistore24 order e-mail — it holds the refund link for the 60-day guarantee.

2 Find your Thinkific login

You are enrolled on **Thinkific**, usually within minutes, and receive an e-mail with your login details.

- Not there? Check your spam folder, or e-mail the instructor at the address on the sales page.
- Set a password you will remember and bookmark the course dashboard.

3 Choose your path

Pick the path that matches your life today — you can switch any time, because all paths use the same 27-course library.

- **Career Changer**: new to Scrum, about 4–6 weeks at 5–7 hours a week.
- **Drafted Pro**: your company adopted Agile, about 3–4 weeks at 4–6 hours a week.
- **Practicing Pro**: already SM, PO or BA, about 6–8 weeks at 5–8 hours a week.

💡 Not sure? Start with Scrum Career Compass — a 7-day self-assessment that helps you pick a direction.

4 Block study time in your calendar

Put fixed sessions in your week — for example three sessions of 1.5–2 hours. Use our study plan calculator to see when you could finish.

5 Watch, then apply

Work through your path's courses and download the templates inside them: sprint plans, retrospectives, user stories and risk assessments. Try them on a real or practice project.

- Skip the 13 career and marketing courses for now if you only want Scrum.

6 Prepare your job materials

Use the career toolkit for your resume, LinkedIn profile and interview answers, and add your certificates of completion to LinkedIn as you finish courses.

7 Practise the PSM I exam

Take the 80-question **PSM I Exam Walkthrough**, pausing to test yourself. Read the official Scrum Guide alongside it.

- Aim for 90%+ and under 50 minutes before you pay for the real exam — check with our readiness tool.

8 Book the official assessment

When you are ready, buy the PSM I assessment at **Scrum.org** ($200 per attempt). You receive a password by e-mail and take the 80-question, 60-minute test online; 85% is needed to pass.

- If the bundle is not for you, request your refund within 60 days.

OPTIONAL

Where to start on each path

Suggested first courses for each path, based on the seller's descriptions. All courses are open to you from day one.

Career Changer

1. **Scrum Master Starter Kit** for the basics.
2. **Agile and Scrum Masterclass** for the full framework.
3. **User Story Mastery**, then the **PSM I walkthrough** and the career toolkit.

Goal: first Scrum Master or Product Owner role.

Drafted Pro

1. **Scrum for Non-Technical Teams** for the vocabulary.
2. **Handle Difficult People in Scrum** for meetings.
3. **Retro Results** and the **Backlog Refiner** to contribute.

Goal: speak up in refinement, retros and stand-ups.

Practicing Pro

1. **Risk Management EXECUTION System**.
2. **Mastering User Requirements** and **Software Testing Mastery**.
3. **AI-Powered Backlog Refiner** and the senior Masterclass modules.

Goal: make your impact visible to leadership.

Six things worth knowing

One library
All three paths use the same 27 courses — switching costs nothing.

Exam not included
PSM I is $200 per attempt at Scrum.org.

85% to pass
68 of 80 questions in 60 minutes — about 45 seconds each.

Completion certificates
Great for LinkedIn, but not official PSM/PSPO.

Self-paced
No live classes; e-mail support and a student group.

60-day refund
Any reason, no viewing limits.

PRINT & TICK

Your Scrum Career Accelerator setup checklist

Tick each step as you go — from your first login to booking the exam.

- [ ] Buy the bundle and keep your e-mails
- [ ] Find your Thinkific login
- [ ] Choose your path
- [ ] Block study time in your calendar
- [ ] Watch, then apply
- [ ] Prepare your job materials
- [ ] Practise the PSM I exam
- [ ] Book the official assessment

Good to know: course names, paths and time estimates come from the seller's page (November 2026). Our assistant can help you choose a path and plan your weeks.

YOUR 60-DAY PLAN

Make the most of the refund window

Week 1	Log in, pick your path and finish the first course.
Weeks 2–5	Work through your path and use the templates on a real or practice project.
Weeks 6–8	Take the PSM I walkthrough until you score 90%+; update your resume and LinkedIn.
Before day 60	Decide: keep it, or request your refund through the Digistore24 order e-mail.

FAQ

Quick answers

What is Scrum Career Accelerator?

It is a bundle of 27 self-paced video courses by Dejan Majkic on the Thinkific platform: 12 Scrum and Agile courses, 2 bonus Scrum courses and 13 career, marketing and consulting courses, plus templates, a career toolkit and PSM I exam prep.

How much does it cost?

$47, paid once. There is no subscription and no upgrade to buy.

Does it include the PSM I exam?

No. It prepares you with a full 80-question walkthrough and certification prep in the Masterclass. The official PSM I assessment is bought separately from Scrum.org for $200 per attempt.

Will I get a certificate?

You get a certificate of completion for every course you finish, which you can add to LinkedIn and your resume. These are not official certifications like PSM or PSPO.

How long does it take?

The seller suggests about 4–6 weeks at 5–7 hours a week for career changers, 3–4 weeks for people new to Agile teams and 6–8 weeks for working Scrum Masters, Product Owners and Business Analysts.

Do I need a tech background?

No. The Career Changer path starts from "What is Scrum?", and there is a course on Scrum for non-technical teams.
