GUARANTEE
30-day money-back
full refund within 30 days

RUNS ON
Any web browser
cloud app, nothing to install

BEST FOR
Marketers & creators
who need sales graphics fast

By Serkan Fatih Gökdemir · SoftwareSelects

OUR VERDICT

The quickest way to professional sales-page graphics

Top pick
Sales graphics

ClickDesigns is built for one job and does it well: turning your product into the graphics a sales page needs — 3D boxshots, ebook covers, device mockups, bundle shots, badges and buttons — without design skills. You pick a template from 28 niches, swap in your text and images, and export in high resolution. One payment covers the Commercial edition with rights to sell the designs you make, it is used by users in 135 countries, and the 30-day money-back guarantee lets you test it on your next launch risk-free.

What we like

- **One payment, no subscription.** The Commercial edition is $67 once — no monthly or yearly fees, per the seller.
- **Made for non-designers.** Point-and-click templates for boxshots, covers, reports, mockups and bundles across 28 niches.
- **Commercial rights included.** You own what you create and can sell designs to clients.
- **Royalty-free assets.** Millions of photos, icons and elements with no attribution needed — or upload your own.
- **Built-in AI.** An AI Image Creator and an AI Content Writer for headlines, CTAs and bullet points.
- **Fits your workflow.** Chrome extension, WordPress media library plugin and integrations with Groove.cm, Convertri and GoHighLevel.

Good to know

- **Marketing-focused.** Its strength is product and sales-page graphics, not photo retouching or video editing.
- **Optional upgrades.** Higher account levels are offered inside the member area — the core edition works on its own.
- **Refund fees.** The seller notes that transaction or refund fees are the buyer's responsibility.
- **Browser app.** You need an internet connection to design; finished files are yours to keep.

WHAT'S INSIDE

Every graphic a sales page needs, in one editor

ClickDesigns combines a drag-and-drop editor with thousands of done-for-you templates. Export in JPG, PNG, WebP or PDF at up to 300 DPI — with optional watermarks.

Product graphics

2D & 3D boxshots
Software and course boxes in several angles

Book & ebook covers
Flat, 2D and 3D covers

Reports & white papers
Present PDFs and printables in 3D

Logos & favicons
Ready-to-edit logo templates

Mockups & bundles

Device mockups
Monitor, laptop, desktop, tablet, phone and watch

Product bundles
Group shots that show the full value of an offer

Bundle template designer
Pre-made wireframes: pick a layout, add designs

Multi-angle views
Shadows, reflections and layouts

Sales & AI tools

Sales funnel graphics
Badges, buttons, guarantees, coupons, testimonials, arrows

AI Image Creator
Text-to-image with styles and aspect ratios

AI Content Writer
Headlines, CTAs, taglines and benefit bullets

Stock library
Millions of royalty-free photos and illustrations

Also included, per the seller: a members-only community, beginner-to-expert video training, weekly live coaching and support by email and live chat.

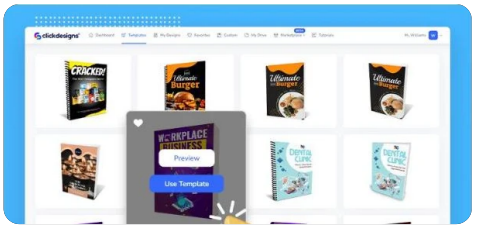
HOW IT WORKS

From template to finished graphic in four steps

1

Pick a template

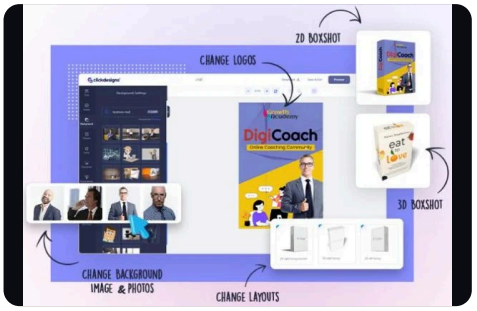
Open **Templates** and choose a category — covers, boxshots, mockups, bundles or funnel graphics. Preview it full-size, then click **Use Template**.



2

Make it yours

Change the logo, text, colours and background images in the editor — or upload your own photos. Layers keep every element separate and easy to edit.



3

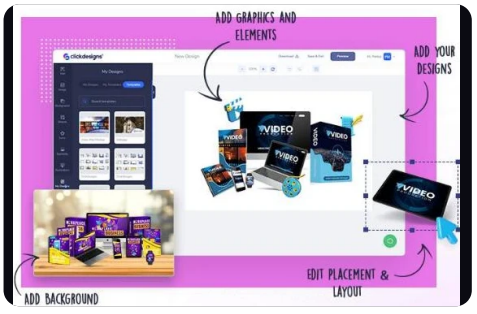
Put it on any device

Place your design on monitors, laptops, tablets, phones and watches, with shadows and reflections, in several angles.

4

Bundle it and export

Combine your covers and mockups into a product bundle, then export in high resolution (up to 300 DPI) and drop it into your sales page.



PRICING

One payment for the Commercial edition

ClickDesigns is sold through Digistore24 as a one-time purchase. Prices are in US dollars, from the Digistore24 checkout and the seller's sales page.

What you get

ClickDesigns Commercial

$67 one-time

No monthly or annual fees, per the seller.

- Drag-and-drop editor and 1,000s of templates
- AI Image Creator and AI Content Writer
- Boxshots, covers, reports, mockups and bundles
- Commercial rights to sell your designs
- Chrome extension, WordPress plugin, training and community

Freelancer comparison

$25–$50 per graphic

Typical freelance prices quoted by the seller.

- Book cover: $25–$45 each
- Boxshot: $25–$30 each
- Product bundle: $35–$50 each
- Graphics & illustrations: $25–$30 each
- Plus waiting time and revisions

The seller sometimes offers seasonal discount codes, and optional upgrades are available inside the member area. The current price is always shown at checkout.

HOW TO TRY IT

Try ClickDesigns risk-free in 4 steps

1

Check out once

Pay the one-time $67 on the Digistore24 checkout.

2

Make one launch kit

Cover, boxshot, device mockup and bundle for one real offer.

3

Use them live

Put the graphics on your sales page or social posts.

4

Decide within 30 days

Keep it, or request a refund before day 30.

Your safety net: ClickDesigns comes with a 30-day money-back guarantee. If it isn't right for you, request your refund within 30 days — via the link in your Digistore24 order email or by contacting ClickDesigns support.

SETUP GUIDE

Setting up ClickDesigns and making your first design

Getting started takes about 10 minutes. Follow these steps in order — by the end you will have your first finished graphic.

1 Check out and watch your inbox

Complete the Digistore24 checkout with the email address you want to log in with. Digistore24 sends your receipt, and ClickDesigns emails your login details to the same address.

- Keep the Digistore24 order email — it has your order ID and the refund link.
- No logins after a few minutes? Check your Spam folder and the Promotions tab.

💡 Your 30-day money-back window starts on the day you pay — plan your first designs for the first week.

2 Log in to the app

Go to `app.clickdesigns.com/login` and sign in with the details from the email. ClickDesigns runs in the cloud — nothing to install.

- Logins still missing? Open `app.clickdesigns.com/forget` and enter your order email — if your payment went through, your account already exists and you will get a reset link.
- Still stuck? Email ClickDesigns support with your order ID.

3 Get to know the dashboard

The top menu has everything: **Templates**, **My Designs**, **Favorites**, **Custom**, **My Drive**, **Marketplace** and **Tutorials**.

- Start with **Tutorials** (also at `app.clickdesigns.com/tutorials`) for short over-the-shoulder videos.
- Upload your logo and product images to **My Drive** so they are ready in the editor.

4 Create your first design from a template

Click **Templates**, choose a category (for example **Covers → Books**), click **Preview** to see it full-size, then **Use Template**. Give the file a name and click **Continue**.

- Click **Edit** to customise it, or **Export Flat** to download it as a flat image right away.
- Want a blank canvas? Choose **Start From Scratch** inside a category.

5 Edit text, images and layers

In the editor, change the text, colours and images. Open **Layers** (top right) to see every element separately.

- Rename layers with the pencil icon — it makes later edits much faster.
- Use the colour picker to match your brand colours, and the image mask tool to shape photos.
- Add your own logo from My Drive, or search the royalty-free library.

💡 Save often — your work stays in My Designs and you can reuse it for the next mockup or bundle.

6 Use the AI tools

Click **Image AI** at the lower left of the editor. Describe the image you want, optionally add a negative prompt (what to avoid), pick the number of variations, a style and an aspect ratio, then click **Generate Image**.

- Example prompt: “Image of a woman wearing a black dress, looking mysterious”. Example negative prompt: “blurry, out of frame”.
- The AI Content Writer in the editor writes headlines, calls to action, taglines and benefit bullets for your design.

7 Export and publish

Download your design as JPG, PNG, WebP or PDF. Choose 72, 96 or 300 DPI and an original, medium or small size — use the export helper above to pick the right settings.

- Use 300 DPI for print and logos; WebP or PNG at 96 DPI for web pages.
- You can add a watermark when sharing drafts with clients.

OPTIONAL

Optional: connect ClickDesigns to your browser and website

Skip downloading and uploading files — get your designs straight into Chrome, WordPress or your page builder.

Chrome extension

1. In the ClickDesigns dashboard, click **Activate Chrome Extension**, then **Add to Chrome → Add extension**.
2. Pin it: Chrome extensions icon → pin ClickDesigns.
3. In ClickDesigns open **Profile → Settings → API Key** and copy the key.
4. Open the extension, click **Do you have an API key?**, paste it and click **Submit**.

Then search, download or edit any of your designs from the Chrome toolbar.

WordPress

1. Use the ClickDesigns **WordPress media library plugin** included with your purchase.
2. Connect it to your account, then insert designs into posts and pages without downloading.
3. Works with Elementor, Divi, WooCommerce, Beaver Builder, Thrive Architect and more, per the seller.

Find the plugin and its instructions in your ClickDesigns member area.

Page builders & CRMs

1. ClickDesigns connects directly inside **Groove.cm**, **Convertri** and **GoHighLevel**.
2. Connect your ClickDesigns account in the builder to see your graphics there.
3. Any other builder: export PNG or WebP and upload as usual.

More integrations are being added, according to the seller.

Six quick wins for your first week

A 3D cover for your lead magnet
Covers → Books or Reports → edit title → export PNG.

A boxshot for your course or software
Boxshots → pick an angle → add your logo.

Your product on a laptop and phone
Mockups → Devices → drop in a screenshot of your product.

A bundle shot of everything you offer
Bundles → choose a wireframe → add your saved designs.

Badges and a guarantee seal
Funnel graphics → Guarantees and Badges → match your colours.

A headline written by AI
Open the AI Content Writer in the editor and generate a headline.

PRINT & TICK

Your ClickDesigns setup checklist

Tick each step as you go. Most users make their first design within 10 minutes.

- [ ] Check out and watch your inbox
- [ ] Log in to the app
- [ ] Get to know the dashboard
- [ ] Create your first design from a template
- [ ] Edit text, images and layers
- [ ] Use the AI tools
- [ ] Export and publish

Good to know: menu names above come from the ClickDesigns support knowledge base (November 2026) and may change as the app is updated. ClickDesigns support (email and live chat) can help — and our assistant can walk you through it.

YOUR 30-DAY TEST PLAN

Make the most of the money-back window

Days 1–3	Log in, watch the Tutorials and upload your logo and product images.
Days 4–14	Make the graphics for one real offer: cover, boxshot, device mockup and bundle.
Days 15–25	Put them on your sales page and compare them with your old graphics.
Before day 30	Decide: keep it, or request your refund through Digistore24 or support.

FAQ

Quick answers

What is ClickDesigns?

ClickDesigns is a cloud-based design app with thousands of templates for logos, 3D boxshots, book covers, reports, device mockups, product bundles and sales-page graphics. It is made for people without design skills.

How much does ClickDesigns cost?

The Commercial edition costs $67 as a one-time payment on the Digistore24 checkout, with no monthly or yearly fees according to the seller.

Do I need to install anything?

No. ClickDesigns runs in your web browser — log in at app.clickdesigns.com from any computer.

Who owns the designs I create?

You do. The seller states that you own all content you create, and that all photos and graphics in the library are royalty-free with no attribution required.

Can I sell the designs I make?

Yes. The Commercial edition includes commercial rights, so you can create designs for clients or sell them.

Can I use my own logos and photos?

Yes. You can upload your own logos, photos and images and combine them with the templates.
