OUR VERDICT

A full listing toolkit for the price of one freelancer job

Top pick Amazon sellers

Before an Amazon product earns anything it needs a white-background main image, lifestyle and infographic shots, a strong title, bullets, search terms and ideally A+ content. Listimo builds all of that from one phone photo. A photo scan recognises the product, brand, features and even label text; you confirm, and only then does it generate — images in 10 types (main image on pure white, in-use, close-up, infographic, lifestyle, on a model, dimensions and more), the full copy written from measured market data (1,702 niches and 15,431 search terms across 7 marketplaces), A+ brand content and optional videos in 11 types. A free daily ASIN check scores an existing listing from 0 to 100 and names every weak spot. It never needs your Amazon password, covers 12 marketplaces in their local languages and is built in Germany by founder Enes Kurt, who has more than ten years of Amazon experience. Credits are paid once and only deducted on success. With a 60-day money-back guarantee for consumers, it is a strong pick for sellers tired of paying €300–800 per listing.

What we like

- **One photo, a whole listing.** Images in 10 types, copy, A+ content and optional video.
- **Data, not guesswork.** Copy built on measured niches, search terms and — on amazon.de — common complaints.
- **Free listing check.** One in-depth ASIN analysis per day at no cost.
- **You stay in control.** AI-filled fields are marked; nothing generates until you confirm.
- **No subscription, no password.** One-time credit packs; Amazon login never needed.
- **Safe to try.** 60-day money-back guarantee for consumers via Digistore24.

Good to know

- **Credits run out.** A complete listing costs 206 credits, A+ 190, video from 350 — plan with our calculator.
- **Business buyers.** The 60-day withdrawal right applies to consumers; company purchases have no statutory withdrawal.
- **Review AI output.** Check images and claims against your real product and Amazon's category rules before uploading.
- **Prices in euros.** Packs are priced in EUR incl. VAT; checkout shows your local amount.

HOW IT WORKS

Three steps from photo to live listing

1

Add a photo or an ASIN

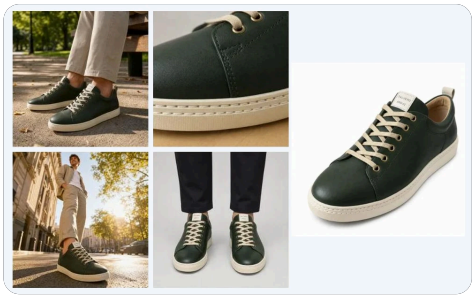
Upload a phone photo (or scan a QR code to shoot it on your phone) or enter an ASIN. Photograph the label too — Listimo reads the details.

Input	photo or ASIN
Photos	up to 6
Label	read word for word
Free check	1 per day

2

Review and confirm

The photo scan pre-fills the form and marks what came from AI. You see the credit price first; nothing is generated until you agree.



3

Generate images, copy and A+

Listimo creates the image set, title, bullets, description, search terms and A+ content. Credits are only deducted on success.

A+ pack	190
