OUR VERDICT

A lot of marketing tools in one place — test it with clear eyes

Top pick marketing suite

Remixable, on Digistore24 since 2022, packs the main tools a digital product seller needs into one browser-based account. Its page builder starts from ready-made blocks and copy: you describe your product, then click “remix” to cycle through headlines, colours, fonts and layouts, and publish on your own domain or a subdomain with hosting included. Around it sit video, voice-over, logo and e-cover tools, 50 resell-rights software products and a no-code Software Generator. The value is real if you will use several of these tools; the sales page’s income stories are the seller’s own, not typical results. Our advice: buy it for the tools, not for a promise of money — and use the refund window of at least 60 days to test every feature you need, starting in week one.

What we like

- **Many tools, one price.** Page builder, hosting, domains, video, voice-overs, logos, e-covers and list-building in one account.
- **Fast pages without design skills.** Start from proven blocks and copy, then remix colours, fonts and headlines with one click.
- **Resell-rights software included.** 50 software products you may rebrand, bundle and sell as your own package.
- **Build simple software without code.** The Software Generator creates hosted, searchable database tools you can sell or give away.
- **Video from a script.** Paste a script, get an AI voice-over and slides with stock media in Rapid Render.
- **One-time price, safe to test.** No monthly fee and a refund window of at least 60 days through Digistore24.

Good to know

- **Income claims are the seller’s.** The sales page shares the founder’s results; they are not typical and no income is guaranteed.
- **You still need traffic.** Tools build pages and products; visitors and sales take marketing work — see the launch math tool.
- **Check the limits you need.** “Unlimited” is promised, yet a dashboard screenshot shows usage counters (e.g. pages created 19 of 100) — ask support what applies to you.
- **Older sales page, little public feedback.** The page dates from 2022; one 2023 Trustpilot review reports slow support on a partnership offer — test support early.

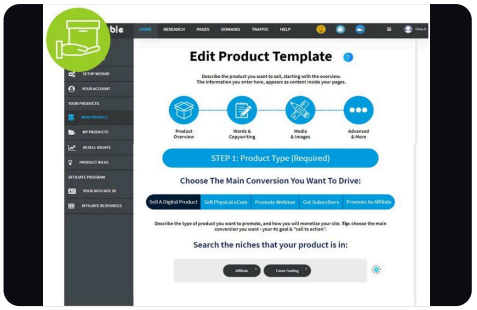
HOW IT WORKS

From an idea to a published product page

1

Describe your product once

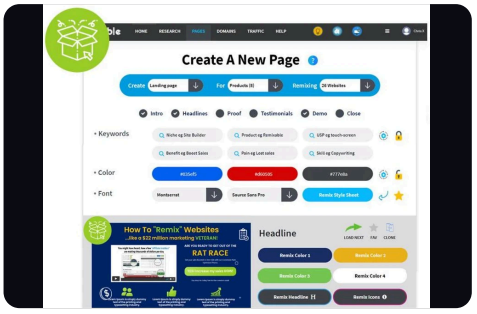
In “Edit Product Template” choose the conversion you want (sell a digital product, physical e-com, promote a webinar, get subscribers or promote as an affiliate), pick niches and add words and media. Everything you enter flows into your pages.



2

Build the page by remixing

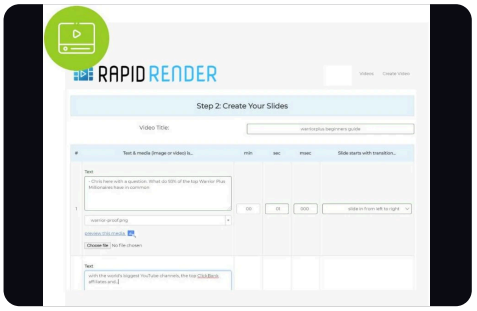
In “Create A New Page” choose the page type and sections, enter keywords, colours and fonts, then click “Remix” on each block to cycle through headlines, colours and icons until you like it.



3

Add a video and a voice-over

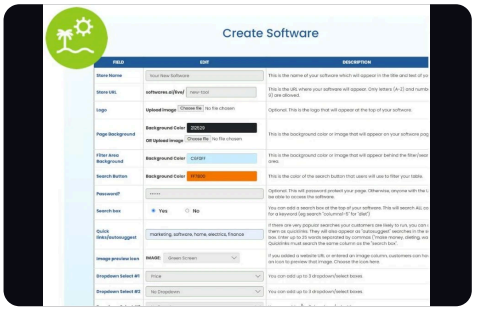
Paste a script into 1-Click Voice for an AI voice-over, then build slides in Rapid Render with timings, transitions and media, and export the video.



4

Create a simple software tool

With the Software Generator, set a store name and URL, colours, an optional password, a search box and filters to publish a searchable database tool you can sell or give away.



PRICING

Founder Edition: pay once, or split it

Remixable Unlimited Founder Edition is sold through Digistore24 Inc. All plans give the same access; only the payment schedule differs. Prices from the order form.

Lowest total

One-time payment

$475 once

Saves $75–$107 compared with the split plans.

- All features and future updates (founder access)
- Hosting, domains and subdomain tools
- 50 resell-rights software tools
- Refund window of at least 60 days

2 payments

$275 × 2

$275 today and $275 a month later — $550 in total.

- Same access as one-time
- Second payment after 30 days
- Refund window of at least 60 days

6 payments

$97 × 6

$97 today, then 5 monthly payments — $582 in total.

- Same access as one-time
- Last payment about 5 months after purchase
- Refund window of at least 60 days

Taxes may be added at checkout where they apply. The sales page lists a "$297/mo" value for comparison; the actual price is the one-time Founder Edition shown above.

HOW TO TRY IT

Try Remixable safely in 4 steps

1
Choose your plan
$475 once, or split into 2 or 6 payments.

2
Test in week one
Product, page, publish — and one support question.

3
Try the extras
Video, voice-over, creatives, resell rights, Software Generator.

4
Decide in time
Keep it, or request a refund within the return period.

Your safety net: Remixable is sold through Digistore24 Inc., whose sales come with a return period of at least 60 days, and the seller's terms say you may claim a refund "for any reason". Request it through your Digistore24 order e-mail. Remixable is a software toolset; it does not guarantee income.

SETUP GUIDE

Setting up Remixable step by step

Plan two or three sessions in your first week. Everything runs in your browser — nothing to install.

1

Choose a payment plan and check out

Pick **$475 once**, **2 × $275** or **6 × $97** on the Digistore24 order form. Keep the order confirmation e-mail — it has your refund link and return period.

- Use the refund deadline tool above to put the date in your calendar.

2

Log in to the members area

Follow the access instructions after checkout and log in at the members area. Bookmark it.

3

Run the Setup Wizard

Open **Setup Wizard** and **Your Account** in the left menu. Check the quick-start page and the "?" help icons — they open short videos for each screen.

- Note the usage counters in your account panel, and ask support if anything you need is limited.

4

Create your product

Go to **New Product** → **Edit Product Template**. Choose the main conversion (sell a digital product, physical e-com, webinar, subscribers or affiliate), search your niches, then add words, copy and media.

- No product yet? Open **Product Ideas** and **Resell Rights** to package resell-rights tools into a bundle.

5

Build your first page

In **Pages → Create A New Page** choose the page type and sections (intro, headlines, proof, testimonials, demo, close), enter keywords, colours and fonts, then click **Remix** on each block until it looks right. Save.

💡 Change one thing at a time and preview on your phone — sales pages are mostly read on mobile.

6

Publish it

Under **Domains** find a domain or use a subdomain, then publish: choose the URL, whether to include the Remixable badge, whether to hide the page from Google (noindex) and any header code (for example analytics).

7

Add a video and creatives

Create a voice-over with **1-Click Voice**, build slides in **Rapid Render** and export the video; make a logo and e-cover for your product.

- Use the video script tool above to plan length and slides.

8

Try the Software Generator — then decide

Build a small searchable tool in the **Software Generator** (store name, URL, colours, optional password, search box, filters). Then go through the 60-day test checklist and decide well before your refund deadline.

- Send support one real question in week one and note how fast they answer.

OPTIONAL

Three ways people use Remixable

Pick the path that matches your plan, so you test the right features first.

Sell your own product

1. Describe it in **Edit Product Template**.
2. Build and remix a sales page; publish on your domain.
3. Add a demo video with **Rapid Render**.

You need a product and a traffic plan.

Resell-rights bundle

1. Open **Resell Rights** and **Product Ideas**.
2. Bundle a few tools, make a logo and e-cover.
3. Build the sales page and test the checkout.

Check each tool's licence terms.

Affiliate promotions

1. Choose "Promote As Affiliate" as the conversion.
2. Use review script templates and voice-overs.
3. Publish a review page or video with your affiliate link.

Follow each program's rules on claims.

Six things worth knowing

Test early
Use week one for the features you are buying it for.

Refund window
At least 60 days through Digistore24 Inc.

Limits
Check your dashboard counters and ask support.

Traffic
Pages don't sell without visitors — plan this first.

Claims
Keep your own sales pages honest; avoid income promises.

Licences
Read the resell-rights terms before selling a bundle.

YOUR 60-DAY TEST PLAN

Decide with confidence

Week 1	Set up, create a product, build and publish one page; send support a question.
Weeks 2–3	Make a voice-over, a video, a logo and an e-cover.
Weeks 4–6	Try resell-rights bundling and the Software Generator; check usage limits.
Before your deadline	Keep it, or request a refund through your Digistore24 order e-mail.

FAQ

Quick answers

What is Remixable?

Remixable is a cloud-based suite for digital product sellers and affiliate marketers. It includes a remix-style page builder with hosting and domains, a video creator with AI voice-overs, logo and e-cover tools, 50 resell-rights software products, a Software Generator and training.

How much does Remixable cost?

$475 as a one-time payment, or 2 payments of $275 ($550) or 6 monthly payments of $97 ($582). All plans include the same Founder Edition access.

Is there a refund?

Yes. It is sold through Digistore24 Inc., whose sales have a return period of at least 60 days, and the seller's terms say you may claim a refund for any reason. Check the exact period in your order e-mail.

Is Remixable a subscription?

No. The Founder Edition is a one-time purchase, optionally split into 2 or 6 payments; the seller says future features are included.

Will Remixable make me money?

Not by itself. It gives you tools to build products, pages and videos, but sales depend on your product, your traffic and your effort. The income stories on the sales page are the seller's own results.

What are resell rights?

You may rebrand, bundle and sell the 50 included software tools as your own package and keep the revenue, according to the seller. Check the licence terms inside the members area for each tool.
