self-paced video, no coding

**BEST FOR**
**Testers & Scrum teams**
career switchers, POs, PMs

By Serkan Fatih Gökdemir · SoftwareSelects

OUR VERDICT

# A clear, practical path into Agile testing

Top pick
QA course

Software Testing Mastery in Scrum teaches testing the way it works in Agile teams today — without asking you to code. Over 10 modules (11+ hours) Dejan Majkić, a CIO with 20+ years in IT and 70+ certifications, moves from the testing mindset and principles to test types (unit, integration, system, acceptance, performance, security), manual testing and test cases, when automation is worth it, Agile test plans and metrics, the tester's role in Scrum and how to fit testing into a sprint. It closes with tools, practical tips and agile-testing interview questions, and comes with a glossary, 50 interview Q&As, a quiz platform, a community and a certificate. For $67 once it is solid value — and if you also want Scrum and PSM I preparation, the same course is part of his $47 Scrum Career Accelerator bundle.

## What we like

- **No coding needed.** Built for manual testers, career switchers, POs and project managers.
- **Agile from the start.** Testing quadrants, Agile test plans, metrics and testing inside a sprint.
- **Smart about automation.** Learn which tests are worth automating — and which are not.
- **Job-ready extras.** 50 interview Q&As (86 pages), a 342-term glossary and an interview module.
- **Experienced instructor.** 20+ years in IT, CIO, 140,000+ students across his courses.
- **Lifetime access, safe to try.** $67 once, free updates and a 30-day money-back guarantee.

## Good to know

- **Not a tool or coding course.** You will not learn Selenium or programming; it is about thinking, planning and Agile practice.
- **No official certification.** You get a certificate of achievement, not ISTQB or another official exam.
- **Self-paced video.** No live sessions; questions go through the community and e-mail.
- **Bundle may be better value.** The $47 Scrum Career Accelerator includes this course plus 26 others.

WHAT'S INSIDE

# 10 modules, from mindset to interview

The curriculum as listed on the course page. Each module builds on the one before.

## Foundations (modules 1–4)

**Starting point**
Why testing matters, tester roles

**Testing mindset**
Ground truth, intellectual testing, communication

**Foundations**
Principles, techniques, Agile vs traditional

**Test types**
Unit, integration, system, acceptance, performance, security

## Agile practice (modules 5–7)

**Methodologies**
Manual testing, test cases, automation pyramid

**Agile testing**
Test plans, strategy, metrics, quadrants, reports

**Scrum & testing**
Tester role, test data, fitting testing into the sprint

**Dev–tester collaboration**
Working together on user stories

## Career (modules 8–10 + bonuses)

**Testing tools**
Choosing tools that save time

**Practical tips**
Barriers, tips, interview questions

**5 bonuses**
Glossary, 50 Q&As, community, quizzes, certificate

**Lifetime access**
Future updates free

**Good to know:** student quotes on the sales page describe individual experiences; results depend on your effort and situation. The course does not include an official certification exam.

HOW IT WORKS

# From “why test?” to testing inside a sprint

1

## Build the tester mindset

Modules 1–3 cover why testing matters, how good testers think and ask questions, and the core principles and techniques.

| | |
|---|---|
| Module 1 | Starting point · 45 min |
| Module 2 | Mindset · 1 h |
| Module 3 | Foundations · 1.5 h |
| Coding | not needed |

2

## Learn the test types and methods

Modules 4–5 explain unit, integration, system, acceptance, performance and security testing, writing better test cases and the test automation pyramid.

| | |
|---|---|
| Test types | 7 lessons |
| Test cases | write them better |
| Automation | when it pays |
| Assignment | manual testing |

3

## Test the Agile and Scrum way

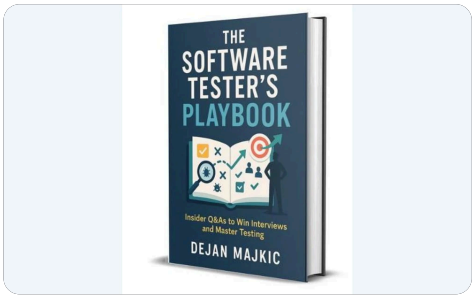
Modules 6–7 cover Agile test plans and strategy, metrics, the testing quadrants, the tester’s role in Scrum and how to fit testing into the current sprint.

- Agile test plan ✓
- Testing quadrants ✓
- Test metrics ✓
- Testing in the sprint ✓

4

## Prepare for the job

Modules 8–10 add tools, practical tips and agile-testing interview questions; the bonus Playbook has 50 interview Q&As on 86 pages.



PRICING

# One payment, lifetime access

The course is a one-time purchase through Digistore24 with lifetime access and free future updates. Price from the order form.

All bonuses included

### Software Testing Mastery in Scrum

**$67** one-time

10 modules, 11+ hours, self-paced.

- 342-term testing glossary (PDF)
- 50 interview Q&As (86-page PDF)
- Private community and unlimited quizzes
- Certificate of achievement
- 30-day money-back guarantee

### Alternative: Scrum Career Accelerator

**$47** one-time

The instructor's 27-course bundle that also includes this course.

- Software Testing Mastery plus 26 more courses
- Scrum, PSM I prep, user stories, requirements
- 60-day refund for any reason
- See our full review

Taxes may be added at checkout where they apply. Optional add-on courses are offered on the order form; they are not needed. Read our Scrum Career Accelerator review to compare.

HOW TO TRY IT

## Try the course risk-free in 4 steps

1. **Choose course or bundle**
   $67 course, or $47 bundle incl. this course.
2. **Watch the demo**
   See the teaching style first.
3. **Finish modules 1–3**
   About 3 hours in week one.
4. **Decide within 30 days**
   Keep it, or request a full refund.

**Your safety net:** the seller offers a 30-day money-back guarantee — if the course does not help, e-mail the instructor or use the refund link in your Digistore24 order e-mail within 30 days for a full refund.

SETUP GUIDE

# Getting started with the course

Access is immediate. A plan of a few hours a week gets you through in about a month.

1

### Decide: single course or bundle

If you only want testing, buy this course ($67). If you also want Scrum roles, PSM I prep or requirements, the $47 Scrum Career Accelerator includes this course too.

2

### Buy and get access

Check out through Digistore24. You get access right away and the login details by e-mail — keep the order e-mail for the 30-day guarantee.

3

### Watch the free demo first

The first lesson of Module 1 is a demo of the course; it shows the teaching style before you dive in.

4

### Plan your weeks

Block 2–3 sessions a week. Modules 1–3 (about 3 hours) in week one, modules 4–6 in weeks two and three, modules 7–10 in week four.

💡 Complete the first three modules within the 30-day guarantee — the seller suggests this to judge the course.

5

### Do the assignment and quizzes

Module 5 includes a manual-testing assignment; use the unlimited quiz platform after each module.

6

### Apply it to your next sprint

Write an Agile test plan, use the testing quadrants and try fitting testing into the sprint — use our capacity check and risk tool above.

7

### Prepare for interviews

Work through Module 9's interview questions and the 50-question Playbook; learn the glossary terms you are unsure about.

8

### Get your certificate

Finish all modules to get the certificate of achievement and add it to LinkedIn. If the course is not for you, request a refund within 30 days.

OPTIONAL

# Where to focus for your role

Everyone gets all 10 modules; these are the parts to focus on first.

### New to testing

1. Modules **1–4**: mindset, foundations, test types.
2. The manual-testing assignment in Module 5.
3. Glossary and interview Q&As.

Goal: first testing role.

### Tester in a Scrum team

1. Modules **6–7**: Agile testing and Scrum.
2. Automation pyramid in Module 5.
3. Module 9 tips for team barriers.

Goal: stop being the bottleneck.

### PO, PM or analyst

1. Module 3 Agile vs traditional testing.
2. Module 7 dev–tester collaboration on stories.
3. Module 6 test metrics and reports.

Goal: better quality decisions.

## Six things worth knowing

**No coding**
Thinking, planning and Agile practice.

**11+ hours**
10 modules, self-paced.

**5 bonuses**
Glossary, Q&As, community, quizzes, certificate.

**Not ISTQB**
Certificate of achievement only.

**Bundle option**
Included in the $47 Scrum Career Accelerator.

**30-day guarantee**
Do modules 1–3 early.

PRINT & TICK

# Your Software Testing Mastery in Scrum setup checklist

Tick each step as you go — from your first lesson to your certificate.

- [ ] Decide: single course or bundle
- [ ] Buy and get access
- [ ] Watch the free demo first
- [ ] Plan your weeks
- [ ] Do the assignment and quizzes
- [ ] Apply it to your next sprint
- [ ] Prepare for interviews
- [ ] Get your certificate

**Good to know:** module and lesson names follow the course page (November 2026). Our assistant can help you plan your weeks.

YOUR 30-DAY PLAN

## Make the most of the guarantee

| | |
|---|---|
| **Week 1** | Watch the demo and modules 1–3. |
| **Week 2** | Modules 4–5 and the manual-testing assignment. |
| **Week 3** | Modules 6–7; apply them to a real sprint. |
| **Week 4 (before day 30)** | Modules 8–10, interview prep — then decide to keep it or request a refund. |

FAQ

# Quick answers

### What is Software Testing Mastery in Scrum?

A self-paced online video course by Dejan Majkić with 10 modules and 11+ hours on testing fundamentals, test types, manual and automated testing, Agile and Scrum testing, tools and interview preparation.

### Do I need to know how to code?

No. The course is designed for testers and career switchers without coding; it covers when automation is worth it rather than how to program tests.

### How much does it cost?

$67 one-time with lifetime access and free future updates.

### What bonuses are included?

A 342-term testing glossary, a 50-question interview Q&A e-book (86 pages), private community access, an unlimited quiz platform and a certificate of achievement.

### Is there a certificate?

Yes, a certificate of achievement for completing the course. It is not an official certification such as ISTQB.

### Is it the same course as in Scrum Career Accelerator?

Software Testing Mastery is one of the courses in the instructor's $47 Scrum Career Accelerator bundle, which also includes 26 other Scrum, Agile and career courses.
